

September 22, 2022

Dear Residents and Employees,

Over the last several weeks we have seen a drop in the number of COVID-19 related cases, and most cases that have occurred have resulted in mild to moderate symptoms. The Montgomery County transmission rate also continues to decline, which is also a good sign. Lastly, the vast majority of residents have received the most current Bivalent Pfizer Booster. Given these encouraging factors we will be making some adjustments to our guidelines.

Effective immediately, we will no longer require residents to wear facemasks while in the Carlton Commons Building. For the time-being, employees will continue wearing facemasks in the Carlton Commons. Everyone is still required to wear a facemask when visiting any area contained within the Health Care Center including the Pharmacy, Wellness Clinic, Rehabilitation, Personal Care and Skilled Nursing areas. We are also lifting any maximum capacity restrictions for events and programs.

We cannot thank you enough for your cooperation and assistance over the last few years as we battled the pandemic and its related challenges. It is with great anticipation that we all look forward to a return to our usual lifestyle here at Waverly Heights.

Sincerely,

A handwritten signature in blue ink that reads "Thomas P. Garvin".
